SUSTAINABILITY POLICY STATEMENT

Cortec Precision is committed to growing profitably and sustaining our business in an environmentally and socially responsible manner. We use our resources and technology leadership to enable the creation of products that improve the way people live.

Energy Efficiency

Use energy responsibly throughout our business to reduce impacts on the environment and minimize greenhouse gas emissions by conserving energy, improving energy efficiency and giving preference to renewable over non-renewable energy sources when feasible.

Manufacturing for Environment

Manufacture products and services in such a way as to reduce our consumption of natural resources and energy and generation of waste and emission while maximizing our overall functionality.

Pollution Prevention

Minimize waste generated in our operations by maintaining high rates of reuse and recycling.

Employee and Public Outreach

Promote environmental awareness and engagement among employees and contribute to the development of public policies that lead sustainable development.

Cortec Precision also supports via:
